Attention is particularly directed to the "ELECTRO-PATHIC BATTERY BELT," which is the essence of every possible of patient's leisure and experimenting on the part of Mr. C. B. HARNESS, Consulting Medical Electrician to the Medical Battery Company, Limited. Every possible improvement that ingenuity could suggest has been adopted, and it is now offered in evidence as the most comfortable, the most efficient, and the cheapest advantage of Curative Electricity in that form ever invented. Do not be misled by the advertisement of patriotic vendors of rubbishy appliances in which there is nothing Electric but the name. Beware of unscrupulous and unprincipled impostors.

**THE SALE OF ELECTRIC CLOTHING, BANDS, BELTS, &c.**, has, under the auspices of THE MEDICAL BATTERY COMPANY, LIMITED, attained world-wide success. Millions who are constrained to use them are deterred because they are either expensive, bulky, troublesome, or interfere with the dress and figure. None of these objections exist in this Corset, which should be worn daily in place of the ordinary one, and will always do good, never harm. There is no shock or sensation whatever felt in wearing them, which benefit quickly follows. Being made after the best French pattern, with better material and workmanship than any Corset sold, they will outwear those of those commonly used. In ordering, instruct in most exact size of waist, taken over the first apartment. They are all of the same quality, differing only in power. The material is fine in texture, beautifully antiseptic and trimmed, and the electric power can always be turned by a silver coupler, which is sent with each Corset. If you have any ache, pain, or feeling of lassitude, send for one of DR. SCOTT'S ELECTRIC CORSETS. It will quickly relieve your suffering, restore the failing energies, and have a good effect both on body and mind. Beware of any publishing unscrupulous manner of prices and gratitude from those using these Corsets.

**MR. C. B. HARNESS**, the eminent Consulting Medical Electrician, has been specially retained by the Company, and may be consulted daily (without charge), on all matters relating to health and the application of Curative Electricity. Residents at a distance, and those unable to avail themselves of a personal consultation, are invited to write for a PAMPHLET LAWSON PENCE, which will be forwarded POST FREE on application to the MEDICAL BATTERY COMPANY, LIMITED, 52, OXFORD STREET, LONDON, W.—AN EXPERIENCED LADY IS ALSO IN ATTENDANCE DAILY.

**A BEAUTIFUL INVENTION.** By a happy coincidence DR. SCOTT, inventor of the celebrated ELECTRIC CORSET, has discovered an **INTERNAL ELECTRO-AGENCY** within the reach of every body. They will be found in cases of **INTERNAL WEAKNESS, PAINS IN THE STOMACH, PALPITATION, NERVOUSNESS, Hysteria, &c.**, and have actually accomplished this in thousands of cases where every other remedy had hopelessly failed. A tendency to **EXTREME OBESITY** is a condition which, in all cases, these articles will be found to speedily remove. **IN APPEARANCE** they do not materially differ from the usual corsets, but are manufactured in superior style and shape (see sketch). They are worn the same, and fit the same, but give a more graceful figure than any other class of corset. In place of ordinary hooks or laces, and a rib or two at the back, DR. SCOTT'S Electric Belt Elastication, which are exactly the same size, shape, length, breadth, and thickness as the usual back or rib; by this means he is able to bring the Electric power into constant contact with all the vital organs, and yet preserve that elasticity and lightness so desirable in a good corset.

The interest in women's health meant not only power for medical doctors, but the creation of new products that would aid women in obtaining better physical conditions. "Dr. Scott's Electric Corset" promised great benefits to purchasers, even though at least some of the health problems in the later nineteenth century (respiratory and circulatory problems, deformities of the rib cage and the undue constriction of internal organs) stemmed from such unhealthy clothing as the corset. ORDINARY METHOD OF USE.  
**SIMPLE!—SAFE!—NOT A BATTERY!—NO SHOCK!**  
*Any Intelligent Person can apply it.*

**I**N CURING or greatly alleviating the above Diseases, the ELECTROPOISE has been especially successful, as shown by results in more than 200,000 cases in this country and in America; but any trouble that can be overcome by purer blood, and a better circulation throughout the System, will yield to this treatment. It causes the System to absorb an extra amount of Nature's own great vitaliser—

**PURE ATMOSPHERIC OXYGEN.**

The harnessing of electricity coupled with the increased focus on health care led to the development of such products as the "electropoise," a machine devised to run a healing, low-grade, electric current through the body of many disease-sufferers. Notice that the marketing illustration shows a woman—presumably a sleepless neurotic—the using the device. Reproduced by permission of the Bakken Library, Minneapolis, Minnesota.
